

AMENDMENTS TO THE CLAIMS

Please amend the claims as follows:

1 – 37. (Canceled)

38. (New) A method comprising:

displaying, on a computer display, a question;

displaying, on the computer display, simultaneously with the question, a complete answer to the

question, the complete answer including a first word, followed by a second word having m characters, followed by a third word, followed by a fourth word having n characters, where m and n are both greater than 1;

simultaneously displaying, on the computer display with the complete answer, a partial answer

to the question, the partial answer including the first word and the third word, the partial answer not including the second word or the fourth word, the partial answer including m locations for each of the m characters in the second word, the m locations positioned in the partial answer after the first word in the partial answer and before the third word in the partial answer, the partial answer including n locations for each of the n characters in the fourth word, the n locations positioned in the partial answer after the third word in the partial answer; then

displaying in a first font the m characters of the second word at the m locations in the partial answer; then

receiving a first character from a user, the first character not being equal to the first character of the fourth word, the first character being equal to another character of the fourth word; then

not displaying in the first font any of the n characters of the fourth word in any of the n locations of the partial answer; then
receiving a second character from the user, the second character received from the user being equal to the first character of the fourth word; then
displaying in the first font the first character of the fourth word at the first of the n locations in the partial answer.

39. (New) The method of claim 38, wherein the first word of the partial answer and the third word of the partial answer are displayed in a second font.

40. (New) The method of claim 38, wherein the first word of the complete answer and the third word of the complete answer are displayed in a second font and wherein the second word of the complete answer and the fourth word of the complete answer are displayed in the first font.

41. (New) The method of claim 40, wherein at least a portion of the question is displayed in the second font.

42. (New) The method of claim 38, wherein the first word of the partial answer, the first word of the complete answer, the third word of the partial answer, and the third word of the complete answer are displayed in a second font and wherein the second word of the complete answer is displayed in the first font.

43. (New) The method of claim 42, wherein at least a portion of the question is displayed in the second font.
44. (New) The method of claim 38, wherein the first word of the partial answer, the first word of the complete answer, the third word of the partial answer, and the third word of the complete answer are displayed in a second font and wherein the second word of the complete answer, and the first character of the fourth word are displayed in the first font.
45. (New) The method of claim 38, wherein the m locations for each of the m characters in the second word of the partial answer each includes an underline character.
46. (New) The method of claim 38, wherein the m locations for each of the m characters in the second word of the partial answer each includes a non-continuous underline character.
47. (New) The method of claim 38, wherein the displaying, on a computer display, a question, includes displaying a web document.
48. (New) The method of claim 38 further comprising displaying an indication that the first character received from the user is not equal to the first character of the fourth word.
50. (New) The method of claim 38, further comprising receiving a character from the user before receiving the first character received from the user and receiving an additional character from the user after receiving the first character received from the user and before receiving the second character received from the user.

51. (New) The method of claim 38, wherein the complete answer includes an additional word between the first word of the complete answer and the second word of the complete answer.

52. (New) The method of claim 38, further comprising displaying an error message.

53. (New) The method of claim 38, wherein receiving the first character from the user includes receiving data from a computer keyboard.

54. (New) The method of claim 38, wherein receiving the first character from the user includes receiving data from a computer mouse.

55. (New) The method of claim 38, wherein receiving the first character from the user includes receiving data from a microphone.

56. (New) The method of claim 38, wherein receiving the first character from the user includes receiving data from a touch pad.

57. (New) The method of claim 38, wherein receiving the first character from the user includes receiving data from a touch screen.

58. (New) The method of claim 38, wherein receiving the first character from the user includes receiving data from a number pad that is utilized to input non-numeric characters.

59. (New) The method of claim 38, further comprising displaying a hint object.

60. (New) The method of claim 59, further comprising receiving an indication that the user selected the hint object and then displaying the second character of the fourth word in the second of the n locations in the partial answer.

61. (New) The method of claim 59, further comprising receiving an indication that the user selected the hint object and then displaying the n characters of the fourth word.

62. (New) The method of claim 59, further comprising receiving an indication that the user selected the hint object and then displaying the second character of the fourth word in the second of the n locations in the partial answer and displaying the second character of another word in the partial answer.

63. (New) The method of claim 59, further comprising receiving an indication that the user selected the hint object and then displaying the consonant characters of the fourth word in at least two of the n locations in the partial answer.

64. (New) The method of claim 59, further comprising receiving an indication that the user selected the hint object and then displaying the vowel characters of the fourth word in at least two of the n locations in the partial answer.

65. (New) A method comprising:

displaying, on a computer display, a question;

displaying, on the computer display, simultaneously with the question, a complete answer to the

question, the complete answer including a first word having m characters, followed by a

second word, followed by a third word having n characters, where m and n are both greater than 1;

simultaneously displaying, on the computer display with the complete answer, a partial answer

to the question, the partial answer including the second word, the partial answer not

including the first word or the third word, the partial answer including m locations for each

of the m characters in the first word, the m locations positioned in the partial answer before

the second word in the partial answer, the partial answer including n locations for each of the

n characters in the third word, the n locations positioned in the partial answer after the

second word in the partial answer; then

displaying in a first font the m characters of the first word at the m locations in the partial answer; then

receiving a first character from a user, the first character not being equal to the first character of the third word, the first character being equal to another character of the third word; then not displaying in the first font any of the n characters of the third word in any of the n locations of the partial answer; then

receiving a second character from the user, the second character received from the user being equal to the first character of the third word; then

displaying in the first font the first character of the third word at the first of the n locations in the partial answer.

66. (New) The method of claim 65, wherein the second word of the partial answer is displayed in a second font.

67. (New) The method of claim 65, wherein the second word of the complete answer is displayed in a second font and wherein the first word of the complete answer and the third word of the complete answer are displayed in the first font.

68. (New) The method of claim 67, wherein at least a portion of the question is displayed in the second font.

69. (New) The method of claim 65, wherein the second word of the partial answer, and the second word of the complete answer are displayed in a second font and wherein the first word of the complete answer is displayed in the first font.
70. (New) The method of claim 69, wherein at least a portion of the question is displayed in the second font.
71. (New) The method of claim 65, wherein the second word of the partial answer, and the second word of the complete answer are displayed in a second font and wherein the first word of the complete answer, and the first character of the third word are displayed in the first font.
72. (New) The method of claim 65, wherein the m locations for each of the m characters in the first word of the partial answer each includes an underline character.
73. (New) The method of claim 65, wherein the m locations for each of the m characters in the first word of the partial answer each includes a non-continuous underline character.
74. (New) The method of claim 65, wherein the displaying, on a computer display, a question, includes displaying a web document.
